### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The title of the invention is not descriptive. The title is changed as follows to clearly indicate the invention to which the claims are directed.

Please amend the title to read as follows:

-- MICROCOMPUTER COMPRISING ELECTRIC POWER SOURCE  
WITHOUT CONDENSER FOR BACKUP FOR CHANGING POWER SOURCE LEVEL  
BASED ON POWER SUPPLY STOPPED OR RESUMED --

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art of record, alone or in combination, does not teach a microcomputer having a first electric power source to which a condenser used for backup is added and a second electric power source to which a condenser used for backup is **not** added but a resistance load is added wherein when the second electric power source supply of power is stopped or resumed, a level of the second electric power source is changed from one state to another.
